StudentConsult

- The StudentConsult platform combines Elsevier's world-class book content and improved search, rich media, and social and community features from Inkling.
- StudentConsult is a B2C platform and hosts books for undergraduate medical, biomedical and pharmacy courses.
- Many (although not all) of the medical undergraduate titles come with access to the full eBook via the StudentConsult platform. In many cases there are additional multimedia features and additional content available such as: MCQ questions, cases, videos, animations etc.
- This is accessed via a PIN code printed on the inside front cover of the books which can be redeemed once on the platform.
- <https://studentconsult.inkling.com/>

Unique Book IDs / Anti-Piracy Hologram

- Selected Elsevier books are now protected with a unique holographic security seal
- The unique IDs allow customers – trade and end user – to identify genuine Elsevier products
- ***Piracy and counterfeiting prevent funds from being reinvested in research and resources, limiting progress in the field of medicine. Elsevier is committed to improving education, facilitating scientific discoveries and supporting the content and information industry.***
